

# AWR reports from SQLPlus

- get DBID, Instance number, and range of snapshots for AWR report

```
select * from dba_hist_snapshot;
```

- For text report:

```
select output from table(dbms_workload_repository.awr_report_text(DBID,INSTNUM,SNAPSTART,SNAPSTOP));
```

- For HTML report:

```
select output from table(dbms_workload_repository.awr_report_html(DBID,INSTNUM,SNAPSTART,SNAPSTOP));
```

(spool to file, if applicable)
